

BC Rural Site Visits Program - Interview Guide (Physicians)

These questions are used as a guide to facilitate our meetings with physicians. We prefer to keep the meeting un-structured and open, so if there are topics that are not covered in our questions we are still very interested to discuss them with you.

Demographics

1. Tell us about your practice.
 1. What are its unique features?
 2. What works well?
 3. How do you share the workload?
 4. Tell us what health services you have available in your community.
 5. What supports do you have?
 - a. Practice coverage? CPD? Connection with Divisions? Connection with Health Authority?
 6. What are your connections to the community?
 7. Tell us about special population groups that you deal with.
 8. What are you proud of?
 9. What keeps you up at night?

Context

1. Tell us about your isolation.
2. Tell us about geographical context.
3. Tell us about emergency medical transport services.
4. Are you a teaching practice?
 1. What encourages you to be a teaching practice?
 2. What would encourage you?
 3. How does this affect your practice?
 4. What supports are you getting?
 5. Are there additional supports that you need?
5. Tell us about locums in your community.
6. What are your CPD needs?
7. Are you involved in research?
 1. What encourages you?
 2. What would encourage you?
 3. How does this affect your practice?
 4. What supports are you getting?
 5. What supports would you like?

Innovations

1. What unique solutions have you developed?
2. What can other sites learn from you?

Services

1. What services are currently provided?
2. What services would you like to provide?
